**Comilla University Condemns Ongoing Genocide in Gaza**

Comilla, 07 April 2025

Comilla University expresses grave concern and strong condemnation over the ongoing genocide in Gaza, perpetrated by the Israeli Defence Forces (IDF). The relentless attacks on innocent civilians, especially women and children, and the destruction of vital infrastructure represent a blatant violation of international human rights and humanitarian law.

Despite global outrage, the international community has yet to take effective measures to halt this humanitarian catastrophe. The indiscriminate killing of civilians, mass displacement of families, and systematic targeting of homes, hospitals, and schools are deeply distressing and morally indefensible.

Such acts are in clear breach of the Geneva Conventions, which protect non-combatants and prohibit the targeting of civilian populations and infrastructure during armed conflict. Every innocent life lost, every child orphaned, and every family displaced highlights the urgency for decisive global action.

Comilla University calls upon the international community—particularly the United Nations, the United States, the European Union, and all peace-committed nations—to impose sanctions on those responsible, press for an immediate ceasefire, and hold the perpetrators accountable through lawful international mechanisms.

As an institution committed to the values of peace, justice, and humanity, Comilla University stands in unwavering solidarity with the people of Palestine. We urge all governments, humanitarian organizations, and global citizens to raise their voices and act swiftly to end this violence.

Protecting human dignity and life must take precedence over political interests. Ending the cycle of oppression is not just a moral obligation—it is essential for securing a peaceful and just future for all.

We stand with Palestine. Freedom and justice must prevail.
